In a public statement, Dr. Reiner Fuellmich says:

> "...the allegedly new and highly dangerous corona virus has not caused any excess mortality anywhere in the world... But the anti-corona measures, whose only basis are the PCR tests results... have, in the meantime, caused the loss of innumerable human lives and have destroyed the economic existence of countless companies and individuals worldwide."
>
> "In Australia, for example, people are thrown into prison if they do not wear a mask, or do not wear it properly (as deemed by the authorities). In the Philippines, people who do not wear a mask... are getting shot in the head."

It's no wonder, Dr. Fuellmich refers to the COVID-19 scandal as "the greatest crime against humanity ever committed."

Dr. Fuellmich is one of four members of the German Corona Investigative Committee. The Committee is filing a class action lawsuit against those responsible for the German lockdowns — including the WHO and many pharmaceutical companies, as well as the German government.

You can listen to the committee's full and articulate statement of the facts of their case in the video below or in this BitChute video.
